

WATERING SYSTEMS
CLICK DRINKERS

A New Twist on Watering

Reliable, long-lasting and efficient, Click watering offers excellent feed conversion by providing the right amount of water with minimal effort. Preassembled drinkers and a simple, patented push-together pipe design make for quick and easy installation.

Simple and secure twist attachment

Easy water flow actuation for first-day chicks

Preassembled for quick installation

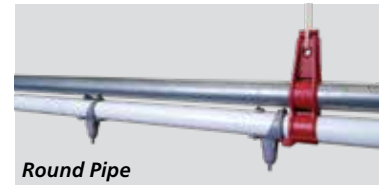

PROVEN & DEPENDABLE™

Quality Click Construction

- Drinkers come preassembled to the tube to reduce installation time and save you money.
- Water flows from the center of the pipe to ensure stability and keep the seal leak and contaminant free.
- The drinker is sealed by a stainless steel insert and ball. Through its natural movement, wear is uniform, providing durability and water flow reliability.
