

Wall Mounting

For MegaFlow Cone Fans

Fan Installation to Wall

Warning!

Do Not Connect Electrical Power Until Assembly Is Complete.
Always Double Check Power Sources!

1. Carefully lift fan into wall. **See Figure 1.**
NOTE: Ensure the fan is raised to the top of the rough opening before housing is attached to the wall. The top three screws should be attached first.
2. Securely attach fan to wall with screws.

CAUTION!

Fan Is Heavy!
Do Not Attempt To Lift Fan Without Sufficient Workers And Equipment.

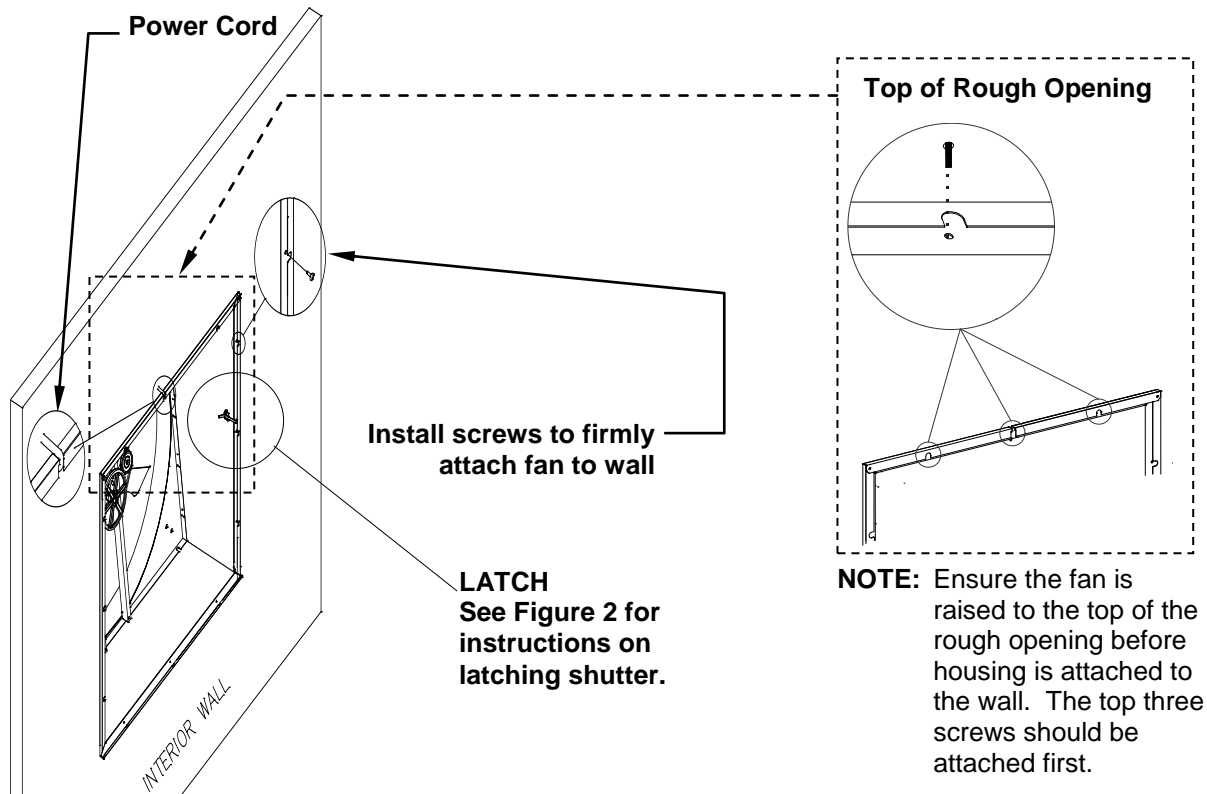

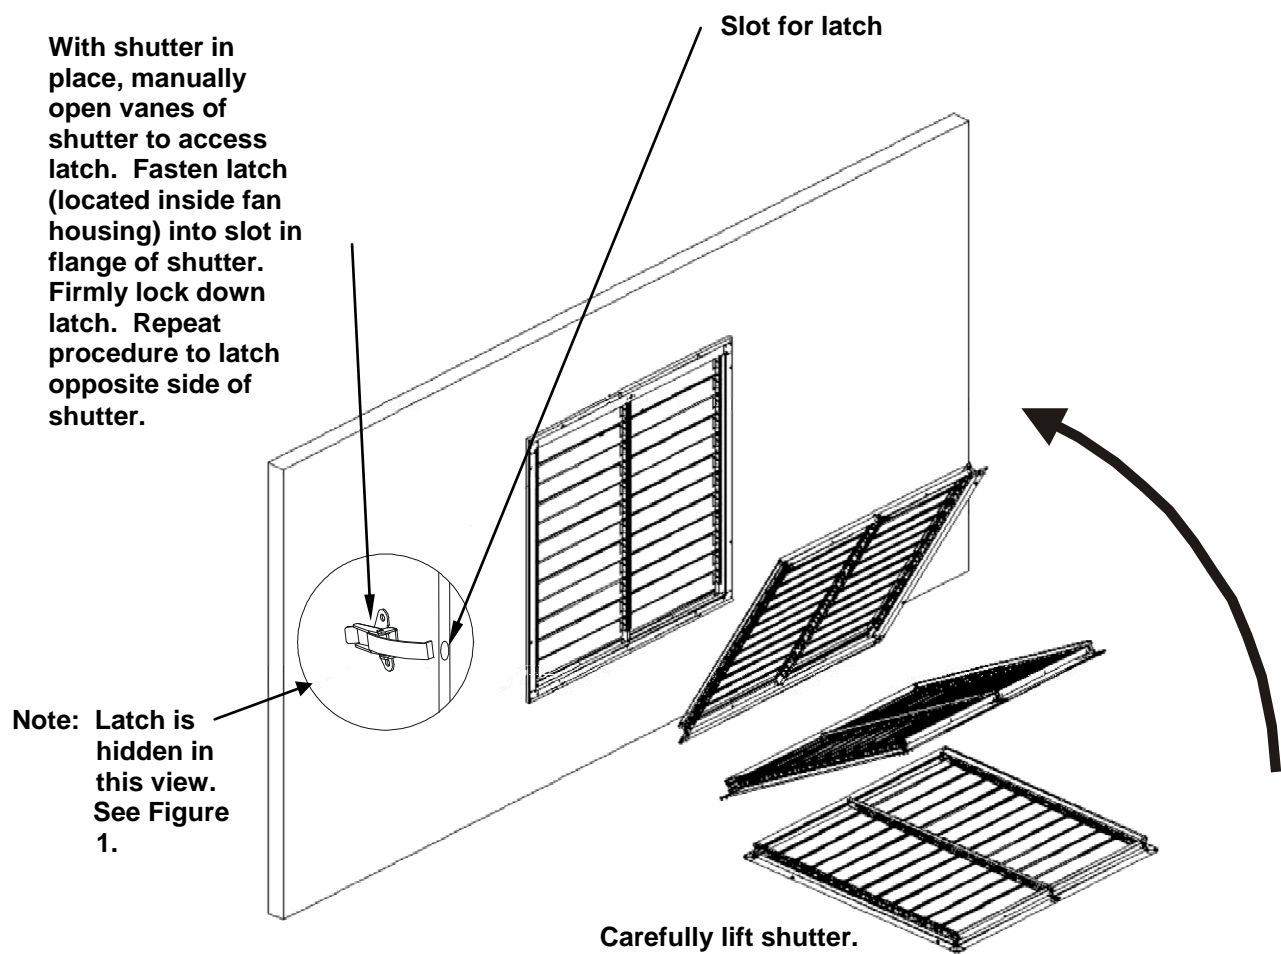

Figure 1

Shutter Installation to Fan

NOTE: Shutter Fits onto Intake Side of Fan.

- A. Lift shutter.
- B. Check that shutter is flush against housing at all points.
- C. Manually open vanes of shutter to gain access to latches on fan housing. Lock shutter latches.
- D. Installation complete.
